Step 1 – Create your Brag Book Cover

Glue Fancy Pants Design Photo frames on your Brag Book cover and add a thin layer of gesso to get a nice white wash.

Add some mists here and there and don't forget to add a tiny bit of water. Dry with a heat gun.

Once your cover is dry, you can start embellish it. I used several Fancy Pants Designs embellishments to decorate my cover : [Mini Die-Cuts](#), [Trendsetter Patterned Enveloppes](#), [Swagger Label Stickers](#) and Sticker Fundamentals.

Step 2 – Organize your Photos

I always add my photos to my albums before doing anything else. Cut your pictures so that they fit into the Brag Book photo pockets.

I made photo collage with Photoshop to decorate a full page of photos in my book – glue them on your right pages.

Add some gesso on some of your photos so that you can use those as a background.

Play with a Fancy Pants Designs Stencil and use it as your main title on your page. Mist it with spray ink, mount it on a Brag Pad paper of your choice, and glue it to your page, using 3D foam tabs.

Add several embellishments on each of your photo page – stickers, flowers, decorative sticker tape...

Step 3 – Add gesso onto your left pages

This will be the base for your journaling.

Add some Stencil leftover titles on your background and mist them. The quality of the Stencil cardstock is so good that the paper won't tear, even if you add too much mist.

Once the gesso is dry, doodle frames and outline your titles.
